Blinds with a view

Custom Blinds Roman blinds come in four styles – our most popular is CLASSIC. The Classic range has a back stitched pocket and has our exclusive one touch chain control.

Rio

This is our classic version of the roman. It offers a simplistic and minimal look. It has the aluminum battens to the rear of the blind which creates the pleating effect. There are no battens at the front, just a very simple and classy look.

Moroccan

This version has timber battens to the back and front of the blind creating a sense of warmth. We have many available timber batten colours to pick from to ensure you get the best fit possible to your home.

Mediterranean

Our Mediterranean roman blind offers chic aluminum battens to the front and back of the blind for a more modern and contemporary look. You can match the battens to the fabric or you can choose to make them really stand out and opt for a chrome batten, drawing attention to your blinds.

One touch control - Classic Design
