### Cedar Venetians

At Custom Blinds we use genuine Canadian premium grade Western Red Cedar for our venetians. This stunning timber is one of the most suitable to use for venetians because of its beauty and stability. It has a unique variation in grains and colouring which looks beautiful. Our timber venetians have an exclusive DURALOC UV coating to protect your new investment.

### Basswood Cedar/Jarrah Image Venetians - premium grade

Basswood has many benefits to those who are looking for a more consistent colour. Basswood is an environmentally friendly plantation grown wood from the hardwood family, which is ideal to use as it won't scratch and is very hard wearing. Lastly, basswood has virtually no warpage, which is why it is used in pianos for soundboards - 10 yr anti-fade warranty.

### NEW! Paris Blanc

Paris Blanc is a 100% natural wood blind system, designed to appeal to customers who are after a combination of classic white colours and a stylish appearance. The colour range includes chalk, creme and Porcelain. These beautiful colours are available in both 50mm and 63mm slats. This new range is stunning and deserves to be considered when furnishing your windows. Paris is a lightweight timber making it easier to lift than most other timber blinds. Paris is a great choice for door areas.

### Features:
